

TOWN OF MARSHFIELD

BOARD OF HEALTH

DATE: _____

CERTIFICATE OF CONSTRUCTION

The undersigned design engineer certifies that the Individual Sewage Disposal System installed by _____ at _____ has been constructed in accordance with the approved plans and the provisions of Title V of the State Environmental Code and the requirements of the Board of Health for Construction Permit number _____ dated _____ and that:

1. The installer complied with the design for the proposed sewage disposal system.
2. There has been constructed a manhole and surface access to the septic tank at a depth below finished grade of _____ inches.
3. The attached as-built plan shows the actual elevation of concrete foundation, floor slabs and septic tank top as well as location of the foundation with respect to property lines and the principal elements of the sewage disposal system. The septic tank and SAS tie distances with the ties to cover on the inlet end of the tank and the distribution box from the building foundation corners, with a distance from a corner of the foundation to where the pipe comes out of the building.
4. Submission of this form and as-built plan are required before a Certificate of Compliance will be issued.
