

DETERMINATION OF "SEVERE REPETITIVE LOSS" STATUS

2/13/2015

If you believe that your property should be identified as a severe repetitive loss (SRL) property based on the flood insurance claim history, please fill out the information on the reverse of this form, and return this form to the Town Planner Greg Guimond. Greg will then forward the forms to the DCR Flood Hazard Management Program for review to determine whether official claims records indicate that the property should be considered SRL. DCR will then either (a) inform Greg as to why the property does not qualify as SRL, or (b) forward the information to the NFIP for their review.

Please note the following definition of severe repetitive loss property:

A severe repetitive loss property is any NFIP-insured property that has met at least 1 of the following paid flood loss criteria since 1978, regardless of ownership:

- **4 or more separate claim payments of more than \$5,000 each (including building and contents payments); or**
- **2 or more separate claim payments (building payments only) where the total of the payments exceeds the current value of the property.**

You can only be considered to be a SRL property if your NFIP claims history meets one of the above criteria. Please review your claims history and only complete the form on the reverse if you believe your claims history meets one or both of the above criteria.

NAME: _____

ADDRESS (from policy): _____

INSURED NAME: _____

POLICY NUMBER (if known): _____

CLAIM HISTORY. List each flood insurance claim paid below, with as much detail as known:

Date of loss	Claim amount paid (\$)	Is address at the time different from above? (Y/N)	Is insured name at the time different from above? (Y/N)

If the address or insured name for any claim is different from the information at the top of the form, please include that information below:
