OLD BUSINESS:

Angela, who did the design graphics for the Hoyt-Hall sign that the Committee liked, got an overview of where we are in regards to signage for our trail system. The group would like her to submit an estimate for the Carreiro kiosk graphics and then possibly for Phase 1 graphics.

We gave her general information regarding the Phase 1 kiosks and the “UR here” supplemental signs content.

The group gave her guidance as to formatting and the content of the Carreiro kiosk. Bill & Ned will work on the specific language with her. Vicki will be her future contact person.

The Committee unanimously approved the motion for RTC to be added to signage logo.

Greg and Bill advised Steve to amend his CPC proposal to include the funding sources of the BSA, MSRWA and Goodwill Hunters as well as the CPC.

Roger will contact Ned for feedback from the Town Meeting and the Carreiro Trail walk. Roger may produce and submit a Mariner article with that feedback.

Vicki will contact the HS with the go ahead for their construction of a double as well as a single kiosk.
