The diagram illustrates a 128-bit data bus architecture. At the top, a horizontal bar represents the 128-bit data bus, divided into four 32-bit segments labeled G0, F0, E0, and D0. Below this bar, the inputs are organized into four groups of 32 bits each, labeled A127-A96, A95-A64, A63-A32, and A31-A0. The outputs are organized into four groups of 32 bits each, labeled B127-B96, B95-B64, B63-B32, and B31-B0. A north arrow is located in the top right corner of the diagram.
