Program Room

Marshfield, MA 02050

Please join us for a workshop
with Marshfield residents,
Town staff, and elected
officials.

The Planning Department is seeking input to help develop recommendations for the Planning Board to consider adding to the update of the Housing Section of the Town's Master Plan and for possible zoning changes to comply with the MBTA Communities regulations.

Topics to be discussed include:

- Beginning the process of updating the Housing Section of the Master Plan
- Review of the status of housing in Marshfield including the Town's Chapter 40B Status
- Possibility of allowing higher density housing in the B-2 District on the north side of Plain Street from Furnace Street to School Street to comply with the requirements for MBTA communities
