Stormwater Outfall Inspection Notice

Starting Thursday, September 21, 2023 and continuing during the weekdays through Friday, September 29, 2023, the Town of Marshfield will be inspecting their stormwater outfalls (or where stormwater discharges into a water body).

The Town has hired Environmental Partners to perform these inspections. Inspectors may need to cross privately-owned property to be able to safely access Town-owned outfalls. All inspectors will be wearing clearly marked vests. Please do not disturb the inspectors during this work.

Instead, please call Environmental Partners Project Manager, Kate Roosa at 617-657-0986 or the Town of Marshfield Department of Public Works at 781-834-5575 for questions or more information.

We appreciate the community's assistance with this important infrastructure work.

Thank you.
